...Take proper care of the saints. Every three days, go to the Dadar [temple], gather the saints and talk to them so they continue to gain strength [in satsang]. Our organization will run through the saints. So, to make them perfect, give them a lot of [spiritual] knowledge so that they can always live with unity, harmony and oneness, are never disturbed, peacefully study, and enjoy.

Also, we want to create another 51 new [saints]. So, remembering SwamiShriji [Swaminarayan Bhagwan and Gunatitanand Swami] and Bhagatji Maharaj and Swami Jaga Swami, Guru Krishnaji Ada and Swami Balmukunddasji, Swami's [Shastriji Maharaj] beloved mahamuktas, make an auspicious wish. Then another 51 will be ready in two years. By then, these saints will become masters in Sanskrit. I wake up 4 o'clock in the morning and pray for this only. SwamiShriji made these Yogeshvars, so may they become very powerful, [and] not step back. May they remain with great strength [in satsang] and follow the commands...
